## Education

2020-24  
BS in Software Engineering

2021  
Google Certification in  
MYSQL

2021  
Certified from AWS & Cisco

## Expertise

- Team Management
- Work Management
- Large Projects Management
- High Level of Ubuntu and Kali Linux command
- NPM Packages Control
- Git Version control
- Server Management

## Reference

- Danial (CEO Siggmaa Ltd)

## Experience

Jan 2018 – May 2021

Systems Limited

### Frontend Developer

- I have extensive experience in designing and developing high-fidelity frontends using React, Blade, and other frameworks. I am proficient in working with Redux for state management and integrating payment gateways.
- I have successfully developed wallets using Node.js, where I implemented algorithms and worked with relational databases. Additionally, I have hands-on experience with Strapi v4 using TypeScript and successfully hosted backend Strapi instances on Google Cloud.
- Moreover, I have worked with Google Cloud buckets, ensuring efficient storage and retrieval of data.

June 2021 – Present

Siggmaa LTD

### Full Stack Developer

- I have a strong background in backend development with Node.js, gained through working for one of the world's leading freelance platforms.
- I have hands-on experience with RabbitMQ and Erlang OTP, which I used to build and manage a dedicated email server.
- I have implemented robust user authentication protocols, including OAuth2, multiple token passing, and cookie parser, to ensure secure access to systems.
- I have also demonstrated my skills in developing high-speed algorithms, such as duplicate image-checking, using Node.js.
- I have designed and developed databases using Mongoose, Express, and Node, ensuring optimal performance and data organization.

## Skills

Frontend	Backend	Databases	Testing & Queue	Web Technologies	Other
React.js	Node.js	MySQL	RabbitMQ	HTML5	Strapi
Next.js	Laravel	MariaDB	Erlang OTP	CSS3	Sanity
Vue.js	GraphQL	Postgres	Mocha	Tailwind	JQuery
Blade	Express.js	Mongoose	Chai	Bootstrap	TypeScript
	Mongoose	Oracle	Cross env	Material UI	JavaScript (ECMA)
